COUNCIL CLOSES DELIBERATIONS

Busy Session Ends With Address by Bishop Woodcock.

Sick and Afflicted Are Remembered By Representatives of Diocese Today.

ARE PLEASED WITH RECEPTION

The second day's session of the Diocesan Council of the Episcopal church of Kentucky opened this morning with the celebration of holy communion at 7:30 o'clock. At 9:30 o'clock the morning prayer was held, adjourning into the business session at 10 o'clock. Bishop Charles E. Woodcock, of Louisville, was in the chair and Mr. John J. Saunders, of Louisville, was secretary of the council.

The business session opened with a reading of the minutes of yesterday's session, which were adopted without protest. The regular business of hearing reports from committees was then taken up, the committee on canons taking the floor. The chairman of the committee on canons read his report with recommendations for changes which were discussed by the delegates. This report occupied a large part of the morning session. During the session four telegrams were sent by the council, one to the bishop at San Francisco, expressing sympathy, the others to delegates who were detained from attending the council.

A report on the condition of the church was read by Mr. J. K. Mason. The council then adjourned for lunch.

This afternoon the council opened with a business session which will wind up that part of the convention. At 4 o'clock the Woman's Auxiliary will meet, the closing service of the council taking place at 8 o'clock with an address by Bishop Woodcock.

Delegates to the council report a most excellent meeting and are particularly pleased with the arrangements made for their comfort and pleasure by the church and rector here. A large audience will greet Bishop Charles E. Woodcock tonight as his ability as a speaker has been demonstrated in many sermons delivered here at different times.

Well Known Men.

There are some prominent men from all over the state in the city attending the diocesan meeting of the Episcopal church, among them being Mr. John C. Lewis, of the Jno. C. Both were pleasant callers at The Sun office today. Mr. George A. Newman, Jr., son of Mr. Newman, is the editor of the Louisville Herald.

FULL REPORT

OF GARFIELD ON STANDARD OIL AND RAILROADS.

Accompanied By Answer to Defense of Company to Charges of Rebating.

Washington, May 17.—The full report of Commissioner of Corporations Garfield regarding relations of Standard Oil company with the great railroads of the country, a synopsis of which was sent to congress by the president May 4, was made public today and delivered to congress. It was accompanied by a form letter from the president.

The document consists of 500 printed pages, about 250,000 words. It presents in detail the evidences of rebating, and the secret rating by which the Standard has been able to crush out competition and pile up inordinate profits.

The most interesting features of the report is reproduced in the special letter from Garfield to the president, designed as an answer to the Standard's defense. It was issued shortly after the publication of the original summary. Garfield takes up the defense section by section. He attempts to ridicule Standard's denial of the violation of laws. It also contains answers to statements made on behalf of the railroads to his original allegations, published in summary.

MORNING TRAINS MET BY POLICE

After Commissioners Restore the Depot Beat.

Disorder and Many Thefts Followed Withdrawal of All Police Protection.

FIRE DEPARTMENT VACANCIES.

The police commissioners have awakened to the fact that the people need some protection in the vicinity of the Union depot and have given them police protection after a several weeks' layoff of the patrolmen on this particular beat.

Patrolman Ed Alexander has been seen at the depot during the morning meeting the trains for two days, and an investigation revealed the fact that he had been ordered to the depot during the morning.

The first shot out of the box was a day light robbery, and a few days later a drunken farmer from Graves county took the platform with a big Colt's pistol.

Night before last a regular fusillade broke the stillness within a square of the depot and many other matters in violation of the laws were reported.

The action of the commissioners in putting the police back is appreciated, and the residents in Littleville are pleased to realize that officers are at hand in cases of emergency.

Three Vacancies.

Harvey Allen, truck driver at the No. 4 fire station, has resigned, and the police and fire commissioners will fill his place at a meeting Monday night. This makes three places in the fire department to fill. Mr. Sid Gilbert resigned a few weeks ago from the No. 3 station and Extra Fireman Frank Digel also resigned.

A report gained currency that Patrolman James Brennan, who is now taking his vacation in Wisconsin, has resigned his position and would remain in that state. An investigation failed to develop that he had. Commissioners J. K. Bonds and J. C. Gilbert have received no word to this effect and James Collins, chief of police, declared that he had not received notification of any such action. The report is thought to have been started as a joke.

His "graff" has been worked successfully, it is said, on several well known farmers, and the police department here was notified this morning. The authorities in the Bandana section are looking for Wilkins and if they catch him will not deal so leniently with him.

Police Items.

The Rev. J. W. Blackard, of 1004 Jefferson street, reported the theft of a set of harness from his stables this morning.

Residents in the neighborhood of Sixteenth and Monroe streets report a great deal of shooting and fighting among negroes of late in that vicinity. It is said that negroes congregated and fight every night or two, and that last night several shots were fired. The police have been instructed to keep a close watch in this section of the city. An investigation of the shooting last night is being made today.

DEMAND ASSEMBLY FOR CONSTITUTION

Workingmen's Deputies Assert Themselves in Douma.

Will Send Reply Protesting Against Whole Tenor of Speech From Throne.

CREATES A GREAT SENSATION.

St. Petersburg, May 17.—The real temper of the great masses of the Russian people who are able voice their sentiments through their chosen representatives in the Douma is beginning to manifest itself. Today was witnessed the first real assertion of the views of the workingmen, and the statement of their position, by the workingmen's deputies created a sensation which surpasses anything that has yet started the Douma members.

A bold demand for the immediate establishment by constitutional convocation of a popular assembly to draw up a constitutional government and before anything else attempted is made by the workingmen's deputies in the name of their constituents. Incidentally these delegates expressed their entire satisfaction with conservatism of the czar's address as formulated by the constitutional demand in the Douma. A reply will be sent to the czar, protesting against the whole tenor of the address from the throne.

MONEY AND STAMPS

STOLEN FROM POSTOFFICE AT OGDEN BY BURGLARS.

Residents Believe They Know Guilty Parties and Have Put Bloodhounds on Trail.

The postoffice at Ogden, a few miles below Bandana, Ky., was burglarized last night and a great quantity of goods taken with the stamp supply with all money from the postoffice, and bloodhounds are being used today in tracking down the burglars.

The postoffice is located in the Sam McGee store, general merchandise, and last night was locked early, the postmaster retiring early. This morning he found his store had been entered by a side window and all the money in the postoffice, amounting to a little less than \$100, stamps and other minor articles taken from the government and a quantity of merchandise stolen.

Shoes dry goods and notions were missed, and it is impossible to ascertain how extensive the robbery was. Bloodhounds were sent for and arrived this morning from Eddyville. They will be used today in tracking down the burglars. It is stated that the residents suspect some one and if the hounds are unsuccessful will prefer charges at once and cause the arrest of those suspected.

Bucyrus, O., May 17.—Judge Tobias today in charging the grand jury asked for an investigation of the record of Frank S. Monnett, and former Prosecutor Charles Gallinger, of this county, on the rumor that in a case against several railroads several years ago, they received \$5,000 more than was authorized by the court, which extra amount it is alleged has never been accounted for. Monnett is at present engaged as a special counsel for the government in the investigation of the relations of the railroads with the iron and coal industries.

MUNICIPAL

OWNERSHIP DEFEATED TWO TO ONE IN DENVER ELECTION.

Republicans Win, With Democrats Second in Three Cornered Aldermanic Contest.

Denver, May 17.—The first election in which Denver voters had a chance to vote on the question of municipal ownership resulted today in the defeat of the proposition by a 2 to 1 vote.

The question was whether the Denver tramway should be given a 20-year franchise for 70 miles of new streets. It carried by a large majority. The vote was light.

As near as can be judged at midnight the Republicans have elected nine aldermen, the Democrats four, and the municipal ownership party two. The Republicans probably have elected two election commissioners and all three supervisors.

NAPKIN SEWED UP IN WOMAN.

Victim of Oversight During Operation Now Sues Physicians.

Webster City, Iowa, May 17.—That Mrs. Fay and Shoop, of Des Moines, sewed a napkin up in her abdomen is the charge made by Mrs. C. C. Gillespie, of this city, who has brought suit for damages in the sum of \$10,000. The piece of cloth was undisturbed for nine months within her abdominal cavity unknown to her. Her petition charges Drs. Fay and Shoop with malpractice for leaving the napkin inside her after performing an operation for appendicitis.

Mention of It During Debate in Lower Russian House Arouses Enthusiasm.

St. Petersburg, May 17.—The lower house of parliament this evening began a debate on the address in reply to the speech from the throne. The only scene of real enthusiasm during the debate was due to a reference to the absence from the address of a plank on the subject of woman suffrage which brought half the members of the house to their feet cheering.

Cupid Shoots Another Dart

At An Often Wedded Couple.

Mrs. Mary A. Hammonds, of the city, 65 years old, does not believe that marriage is a failure. At least, one would judge so from the fact that she has become a bride for the fifth time. Mrs. Hammonds was yesterday afternoon married to Mr. James M. King, a farmer of Pope

TIGERT AND WARD ELECTED BISHOPS

Election Held by the Methodist General Conference.

Believed That Revision of Wesleyan Creed Will Call for Action By Parliament.

ARGUMENT AGAINST A CHANGE

Birmingham, Ala., May 17.—The general conference today elected J. J. Tigert and Seth Ward, bishops. Dr. Tigert, who is a Kentuckian, was favorite in church politics, while Dr. Seth Ward, who is a Texan, was barely mentioned as possibility. Several apparently more prominent candidates were considered ahead of him.

No Change of Creed for Him.

In connection with the recent action of the Methodist general conference creating a commission to meet similar bodies from other branches of Methodism looking to a revision and restatement of the church's creed, Rev. Dinsdale T. Young, the fraternal delegate from Great Britain now here, is inclined to believe that a special act of parliament will be necessary if such a step is taken by the Wesleyan church in England. Mr. Young tonight said:

"My impression is that we cannot have a genuine restatement or revision of the creed without the consent of parliament, owing to John Wesley's poll deed, the legal foundation of Methodism."

Time Limit Unchanged.

After debating the question for several hours, the general conference refused to remove the time limit from the pastorate of the church and adopted the minority report of the committee on itinerancy, which was against the extension of the pastoral limit to six years. This means that the present four-year plan will remain as it is.

DREADNAUGHT

Will Have Rival in Great American Battleship.

Washington, May 17.—The naval appropriation bill, carrying \$100,000,000 was completed in the house after one of the busiest days of the present congress. The feature of the day's debate grew out of the attempt to defeat the appropriation for the largest battleship of its class in the world, and the tenor of the speeches for the big ship was that the American republic must be abreast of the nations of the world in the strength of her navy. The opponents talked for peace, disarmament and arbitration and insisted that there was no national need of such a large navy.

ENGLAND DROPS 40 WAR SHIPS

All But Efficient Fighting Vessels Being Removed From Navy.

London, May 17.—The rapidity with which Great Britain is removing from the navy all but her really efficient war ships was evidenced by a statement presented to parliament today, showing that no less than 40 battleships and cruisers have practically been removed from the list since 1902. During the same period the construction of thirteen new battleships 18 armored cruisers and four protected cruisers was commenced.

a toothsome morsel for the War-
riors.

In the first inning the ropes were
made fast about the Christian and
he was powerless against the war
clubs of the Indians. His struggles
continued throughout the entire
slaughtering operation, but he was
game to the last.

The Massacre.
It is true that the visitors tallied
three, due to misplays, in the first;
but when the Indians went to bat
they showed that they had the Chris-
tian "going," and this was sufficient.
It was a matter of waiting for the
game to end to shout. The Indians
were sure.

In the first inning the visitors tal-
lied three. Long led off with a dou-
ble and Larsen made safe on Tay-
lor's miff of a line drive. Wolfe
tried to sacrifice but Wilgus threw
wild to third to cut off Long. The
two runners scored Wolfe stopping
at third for breath. Roland's single
brought Wolfe in and the side was
then retired in order.

The Indians got one of them back
the last half of the first inning. Mc-
Clain grounded out and Haas singled.
Wetzel singled and started to steal
second. He was thrown out, but
Haas scored on the throw. Ames re-
tired the side by missing three.

The Indians took three the next
inning. Taylor singled and Perry
popped out. M. Miller hit to Roland
and forced Taylor, but made first
himself. Chenault and Wilgus got
passes and filed the bases. McClain
hit a triple and scored them, but he
died on third on Haas' ground out.

The Indians scored another in the
third. Wetzel singled and got sec-
ond on a balk. Ames singled and
with Wetzel pulled off a double
steal. Wetzel scored on a ground
hit to the infield but Ames was not
so successful, being thrown out. The
side was then retired in order.

In the eighth inning one more
score on each side was made.

Cairo earned a run by Connor's
triple and Paducah tallied a run by
bunched hits. In the ninth the Mud
Wallowers failed in three attempts
and the Indians walked off with an-
other bunch of scalps.

The Paducah newspapers have
been requested by the Cairo baseball
management to pay no attention to
"dope" in a certain Cairo newspaper
because of the unreliability of the
baseball writings.

The paper came out the day after
the initial game of the Cairo-Padu-
cah series, claiming that fans in Pa-
ducah threw cushions and other
things not tied down at Cairo play-
ers. This is false, and the writer
must have known it, being acquaint-
ed with the fact that the entire Pa-
ducah grand stand is screened.

"There is such a thing as killing
popularity of baseball in a town
through unreliable writing," Mr. Ed
Eichenberger, of the Cairo team stated,
"and we are averse to many
things printed in this particular pa-
per. We would request that your
Paducah papers and other papers in
the league discontinue copying the
'dope' and this will help a great
deal."

Gilligan was out last night, but ill.
He probably will not play for a week,

fore he attempts any more playing.

Wolfe is catching with a bone fel-
on on his throwing hand. That is
nearly equal to Grover Land.

Grover Land was cut on the
streets of Milwaukee over the eye
by a negro. The negro made a slight
remark about Land and they
mixed. Several negroes interfered,
and one cut Land. He is not serious-
ly injured. Land is catching for To-
ledo and was with the team in Mil-
waukee.

Ames shows up well on second
base. He is a good utility man.

Wolfe does not seem to be any
better stickier than McClain, Haas,
Wilkinson, Burson, Langdon and a
dozen of others we know in the Kit-
ty league.

BARNARD COLLEGE GIRLS
MEET GORKY'S COMPANION

Prof. John Dewey of Columbia
University, invited a number of Bar-
nard College girls to his house to
meet Mme. Andrieva, the actress
whom Maxim Gorky brought over
from Russia and introduced as his
wife.

Every girl but one who was invit-
ed came to the reception. The one
who did not come had a sprained
ankle.

The college girls fell dead in love
with the lady with the advanced
ideas on the subject of marriage.

Mrs. John Martin, of Tompkins-
ville, Staten Island, at whose house
the actress has been staying, brought
her to the reception.

She wore a striking costume in the
black and white effect. Her hair was
wreathed after the most approved
Bohemian fashion, and a single ruby
flamed on the thumb of her little,
white left hand.

She gave a talk on Russian inde-
pendence and Russian women, much
to the disappointment of the women
who came to meet her.

She said nothing about Russian
ideas as to free love.

She didn't even mention, among
the Russian women of whom she
spoke, the little neglected wife and
mother whom Maxim Gorky left
alone for her.

The Barnard girls were tremen-
dously impressed and there is a run
on black dresses and scrambled hair
and flaming red stones at Barnard
this morning.

Danderine

GREW THIS HAIR
AND WE CAN
PROVE IT.

MISS MARMARA HENRY,
5036 Forrestville Ave., CHICAGO.
Miss Henry says: "Before I began using Danderine my hair was falling out in great handfuls, and I am pleased to say that Danderine not only stopped it at once, but has made my hair grow more than twice as long as it ever was."

FLORENCE RUSSELL,
215 Mohawk Street, CHICAGO.
Since it has become generally known that Danderine causes hair to grow just as abundantly on the heads of children as it does on those of matured persons, many truly marvelous cases are coming to our notice. Little Miss Russell, whose photo-graph appears above, is certainly one of the remarkable ones. Her beautiful hair is over thirty inches long and her mother says that "DANDERINE GREW EVERY BIT OF IT."

MISS SELMA HASSELL,
2728 North 43d Court, CHICAGO.
Miss Hassel says: "My hair would not reach below my waist when I began using your Danderine. It was also faded and splitting at the ends. Now it is over 24 feet longer than it ever was and it has regained its original rich blond color. I used the tonic about four months all together."

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, fertilizing and life-producing properties cause the hair to grow abundantly long, strong and beautiful. **IT IS THE NATURAL FOOD OF THE HAIR, SCIENTIFICALLY CHARGED WITH NEW AND GENUINE LIFE-PRODUCING ESSENCES UNHEARD OF BY OTHER MAKERS OF HAIR TONIC. NOW** at all druggists in three sizes, 25 cents, 50 cents and \$1.00 per bottle. **FREE.** To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and ten cents in silver or stamps to pay postage.

Kentucky English.

An English gentleman traveling about the world ascribes to the land of blue grass, fast horses, fine whisky and beautiful women the additional excellence of speaking the purest English he has found after much study of dialects in all parts of the English speaking world. His declaration seems to include both language and diction. The ordinary resident of the British Isles, he asserts, is above all dialectical. He sticks to a totally misplaced r on the end of words like idea, making it idear. The same thing is true of the New Englander often. The people of the Southern states mark their speech by a drawl which is entirely unnecessary; the people of the Northern states have a nasal twang which is a joke to an Englishman. It is only on the middle ground in America that the true English is found, the English of Shakespeare and Dr. Johnson, unmingled with dialectal absurdities or with local peculiarities of expression. Such is the general notion set forth by the observer mentioned.

When the sentence is noted, "Slang as such I do not find in Kentucky and the neighboring regions along the Ohio and Missouri rivers," it is apparent that the field of observation was comparatively limited. But the truth of the main contention remains unshaken. Of course slang is found in Kentucky, as it is almost everywhere in America. But there are certain social circles in Kentucky where the English is distinct from that of the commonality and where special hereditary influences are at work. These circles include two distinct elements of population, one the descendants of the old Virginia landed families and the other the children of the Scotch-Irish pioneers, both of which classes have been noted for the purity of their language and the clearness of their enunciation, contrasting in a marked degree with the more Southern drawl of the gulf states and the nasal sharpness of the Yankee. The race history of these two elements of population will explain the Englishman's comment, "I have found in the city of Louisville a pronunciation and a use of terms which, in my mind, is nearer to Addison and the English classicists than anything which the counties of England, the provinces of Australia, or the marshes of Scotland can offer."

Who Was the Loser?
A banker going home for his dinner saw a \$10 bill on the curbstone. He picked it up and took the number home in order to find the owner. While at home his wife remarked that the butcher had sent a bill amounting to \$10. The only money he had with him was the bill he had found, which he gave to her and she paid the butcher. The butcher paid it to the farmer for a calf, and the farmer paid it to a washerwoman, and she, owing the banker a note of \$10, went to the bank and paid a note. The banker recognized the bill as the one he had found, and which up to that time, had paid \$50 of debt. On careful investigation he discovered that the bill was counterfeit. Now will some of our friends tell us what has been lost in this transaction and by whom?—Kansas City Journal.

Glass From Vesuvius Lava.
(Springfield, Mass., Republican.)
It is being pointed out for the consolation of the people about Vesuvius that lava, like adversity, has its uses. It makes, for instance, a very beautiful glass of extraordinary lightness. But curiously every volcano sends out a special brand of lava with qualities of its own, which can only be discovered by experience. The rich plains of Sicily owe much of their fertility to decomposed lava, and in South America volcanic soil is found to be the best in the world for coffee growing though several planters would rather take the soil without the volcano.

Kentucky Nursery.
Washington, May 17.—Kentucky, famous as a nursery of politicians, is the only state in the union which boasts five native sons in the United States senate. All of them will attend the Home-coming in Louisville next month unless present plans miscarry.

The Kentuckians in the senate are James B. McCreary and J. C. S. Blackburn, of Kentucky; Shelby Moore Cullom, of Illinois; William J. Stone, of Missouri, and Samuel H. Piles, of Washington.

An explosion of a gas reservoir at the plant of the Paducah Bottling company, 1100 South Fifth street, nearly wrecked the building and injured one of the employees, Mr. A. L. Clark, who was preparing the reservoir.

Clark was shaking the metal vessel preparing it for one of the local soda water dispensaries. It was charged with gas, and suddenly exploded. HOSS IN OPPOSITION.

Distinguished Bishop Says Disunion Is Sure to Come.

Birmingham, Ala., May 17.—Bishop E. E. Hoss gave out the following statement in regard to the action of the general conference in providing for the appointment of a commission to invite other Methodist churches to unite in the preparation of a new statement of faith:

"I am squarely opposed to the movement. In the first place it is a movement that means disunion and not peace. In the second place because it means bondage and not liberty. There was no demand for it from any part of the church. The Methodist people everywhere were perfectly content and actively engaged on practical work in the extension of the kingdom of God. The prospect is that we shall now have an era of theological disputation that will arrest our other activities and set us by the ears with one another. This is not the worst of it. I am conscientiously opposed to placing any additional burdens on belief. We already have a number of articles pending forth the essential points in regard to which we are in agreement with the Protestant world. As to all other things we have heretofore enjoyed the largest liberty of belief and utterance. Hereafter, if the present movement goes on, we shall be shut up within the limits of a fresh statement. It is my fixed belief that evil, and evil only, will be the result."

Hubbard, of Hodgenville; Hon. I. B. Hall, of Louisville; Hon. Charles C. Beard, of Fordville, and Richard Lloyd Jones, of New York.

HEIRS TO FORTUNE

SAN FRANCISCO WIDOW AND HER NINE CHILDREN.

Death of Father-in-Law in Sweden Brings Relief to Victim of Recent Disaster.

San Francisco, May 17.—Two hundred and fifty thousand dollars awaits Mrs. Andres Neilson, a widow with nine children, who was burned out during the holocaust and who is now believed to be in some refuge camp about the city. Her husband, a farmer, though a son of a wealthy father in Sweden, died in 1898, leaving the family destitute. The woman, too proud to appeal to her wealthy father-in-law, worked hard to support herself and little ones. They lost all when the fire swept the city. Now comes word that the father-in-law in Sweden is dead and all his large estate is to go to the widow and children of his dead boy.

Saddle Horses at the Top.

From Farmer's Home Journal of May 5, we note that Col. David Castleman of Clifton farm, near Louisville, has sold the 3-year-old saddle stallion "The Moor" No. 1907, to Gen. Wm. Palmer of Colorado Springs for \$7,500.

"Another good sale of Kentucky saddle horses was made in New York this week. The consignment was from Shelby T. Harbison, of Lexington. The top price was \$1,250 for the gelding, Little Acorn. Big Oak brought \$1,025. The pair, Escort and Gallant, sold for \$1,250. Ben Greet brought \$700, Tolu \$900 and Senator \$700."

Also that "At Durand's New York Horse Show," in the saddle class, Patie Palmer won first. She is by Chester Dare No. 10, fourth dam by Duluth. This saddle blood, in its highest perfection, is represented in this section of Kentucky by James M. Lang's horse Rebel Dare No. 1884, by the great Chester Dare, dam by a son of Red Squirrel, second dam by Duluth. Rebel Dare, while the highest bred horse, is also said to be the best saddle horse in Jackson's Purchase.

Daily Thought.

"Talk without action saps the very will."

The Board of Public Works is displaying commendable enterprise in urging the completion of the concrete sidewalks on Jefferson street and Kentucky avenue. Paducah's streets are the despair of pedestrians. The campaign for sidewalk improvement comes at a time when it will subserve a two-fold public service. The walks are needed, because the city has grown so fast in all directions that the municipal boards have failed to keep up with her. Then again, since the enforcement of the stock ordinance residents have an opportunity to tear down their front fences and beautify their premises. The adornment of the property line with clean, even white walks against the dark green of the lawns will be a revelation to those who pass and an incentive to other residents to seek sidewalk improvements and to beautify their premises. A movement of this kind among the citizens fostered and encouraged by the example of the municipality will have no limitations. Prompt action by the city in pushing all public works will soon meet with the co-operation of citizens. Dilatory tactics of officials will disgust the people and retard public improvement.

The vote of the Southern Methodist General Conference on the revision of the creed of faith, showed the laity more opposed to the change than the clergy; in fact, the lay vote was very close. Apparently the people are satisfied. If so, the ministers had best leave them alone, or they may be "hoist by their own petard." One of the coolest and soundest of the college of bishops, the eminent Bishop Hoar, has seen the danger signal and warned them of it.

If all these stesmic disturbances predicted for the northern states come off as scheduled, they will turn the thoughts of wanderers to Kentucky's Home Coming Week. By the way, have you sent those names to the secretary of the Commercial club?

The restoration of the depot beat and the extension of police protection to the traveling public shows how good judgment follows consideration. First impressions count. Paducah should see to it that the visitor gets a good one at the gate of the city.

Fields has confessed to the expenditure of the alleged \$1,000,000 corruption fund of the Mutual Life, but it is probable he has confessed to the actions of some other fellow.

Gasoline has gone up again. But this time it was the Standard Oil and not the cook that precipitated the phenomenon.

Senator Bailey has now got into a fight with newspapers. He will find them less trammeled in their replies by official etiquette.

BAILEY QUARRELS

Calls Chicago and New York Tribunes Cuckoos.

Calls Their Correspondents Liars on Floor of Senate and Latter Come-Back.

MORE SENSATIONAL EPISODES

Washington, D. C., May 17.—The recent efforts of the president and Democratic senatorial leaders to reach an agreement on the rate bill received further notice in the senate from Bailey and Tillman. The matter was referred to by the Texas senator in the course of a personal explanation called out by an article in the Chicago Tribune, charging Bailey with failure to find common ground. In his address Bailey denounced the article in question as a "lie" and the authors and inspirers of it as "liars."

He said: "I intend to put in the record upon the statement of more than one reputable newspaper correspondent in that gallery, and as a rule they are as honorable as the senators on this floor, on their authority, I state that the two chief cuckoos of this administration are correspondents of the New York Tribune and the Chicago Tribune."

Documentary Evidence.

Chicago, Ill., May 17.—The Tribune today will publish the following from "Raymond," its Washington correspondent, in answer to the attack upon his veracity by Senator Bailey:

"When Hon. Joseph W. Bailey, senator from Texas, struck at the president of the United States over my humble shoulders, for that is all he did on the floor of the senate today, he apparently was unaware there was documentary evidence in existence both in the official congressional record and in the form of a written memorandum by former Wm. E. Chandler, absolutely proving he was an object of suspicion to the real friends of the president's railroad policy."

Washington, May 17.—Senator Bailey presented in the senate today documentary evidence in his possession tending to discredit the published statements that he acted treacherously to the party and attempted to prevent effective railroad rate legislation. The documents are in the nature of letters from ex-Senator Chandler.

While Americans take great pride and pleasure in being called "a strenuous people," it is perhaps not generally appreciated that a great many injure themselves physically—wreck nervous systems, invite premature wrinkles, gray hairs and infirmities by the hurry, worry way in which they live, neglecting in many instances proper care of the body and letting the real pleasures of life escape as a forfeit. Unrestrained strenuousness means neurasthenia ultimately.

Neurasthenia is nerve-exhaustion and that means inefficiency of the body to carry on vital functioning. Nerve centres lag; debility ensues; listlessness and fatigue reign. Pain may be felt in the back; fullness or pressure at the top of the head; sleep is broken and without refreshment; digestion notably is weak and loss of appetite, constipation and distress after eating are the rule. The head-ache of neurasthenia is like a band around the head; ordinarily is worse in the morning and better towards the end of day, and is probably the most common of all headaches which come for treatment.

Now, drugs do not help neurasthenia; that is admitted; and physicians have long been accustomed to send their neurasthenics away from the cities to the mountains, seashore, abroad or anywhere to find new scenes and enjoy tranquil restoration. But that is expensive and there is a surer, quicker and better as well as less costly way—Osteopathy.

Osteopathy cures neurasthenia, which is but another name for nervousness, by stimulation to the nerves and the circulation.

I can show you to your satisfaction in a very few minutes why osteopathy is the sane rational cure for ALL diseases of the nerves.

Come to see me at any time between the hours of 9 and 12 in the forenoon and 2 and 5 in the afternoon. Dr. G. B. Froage, 516 Broadway. Phone 1407.

Twenty-five thousand dollars damage by fire was done on the assembly grounds at Mont Eagle, Tenn.

COD LIVER OIL.

It almost makes you sick to think of it, but it isn't nearly as bad as it used to be. The improved method of refining it makes it much easier to take, and when made into Scott's Emulsion almost every one can take it. Most children like it and all children that are not robust are benefited by it. When the doctor says "Take cod liver oil," he generally means Scott's Emulsion; ask him if he doesn't. They know it is more easily digested and better than the plain oil.

NO DAMAGES

RECOVERED BY MRS. FANNIE PRINCE FOR LOSS OF FOOT.

Surviving Victim of Accident in the Illinois Central Yards Beaten in Court.

The case of Mrs. Fannie Prince against the Illinois Central road was tried today and the case was decided for the defendant this afternoon at 2 o'clock. She was knocked off a trestle by an Illinois Central freight train last winter and lost a foot. She sued for \$2,000 damages.

This afternoon the case of Effie Leigh against the Citizens' Savings' bank is on trial.

The case of Mrs. M. E. Head against Cheatham Hodge for \$25,000 damages for the loss of her husband, alleging that the defendant either killed him or was instrumental in effecting his death, was this morning continued at the request of the defendant.

Mrs. Head secured a verdict for \$15,000 damages a few months ago, but a new trial was granted. There are over 100 witnesses to be heard in the case and most of them were on hand today. Hodge claimed that he was not prepared for trial and his motion to continue at his cost was sustained.

In the case of the Mechanics and Farmers' bank against J. L. Friedman and others, the plaintiff filed motion with reasons for a new trial. The motion was overruled and an appeal taken.

The case of Theodore Stone, receiver, against the Paducah City Railway was referred to John K. Hendricks for trial during vacation.

In the case of Rudolph Streit against the city of Paducah the plaintiff's motion for a new trial was withdrawn. Streit got \$50 damages for defective drainage.

John Cashon filed suit for divorce against Rebecca Cashon, alleging abandonment. They married in September, 1892 and separated in July 1900.

Marriages Licenses.

A marriage license was issued to James McDowell, aged 32, and Lillie B. Harris aged 22, colored, of the city.

Police Court.

Ed Holland and Bob Diggs, colored, were granted a continuance on a charge of gaming, and a witness was ordered attached. J. W. Newton, white, charged with contracting without a license, was dismissed.

Bankruptcy Court.

John G. Cairnes, an engineer employed by the Illinois Central, this morning filed a petition in bankruptcy. His debts are small and few, totalling only \$143.45. He lists no assets.

The specifications of objections to the discharge in the bankrupt matter of Thomas Reeves of Ballard county, were examined this morning by Referee E. W. Bagby, and found not substantiated by the evidence in the case. The creditors alleged that Reeves failed to list in his assets \$900 cash and a tract of land, but there was no evidence positively to support it. Referee Bagby overruled the objections and recommended a discharge. He left the case open fifteen days for a revision of his action.

MAMMON WINS OVER PASTORS.

Bankers Beat Preachers, Aided by Two Brewery Men, at Baseball.

La Crosse, Wis., May 17.—Mammon triumphed over religion in La Crosse today when the bankers of the city defeated the ministers in a game of baseball by a score of 16 to 2 and left two of the reverend players so badly hurt that it will be several days before they will be able to attend to their usual duties again. Before the game the bankers gave the preachers a handicap by allowing them to hire a semi-professional battery, and the ministers, without knowing it, procured the services of two members of a brewery team.

STARTS FOR BANK AND DISAPPEARS

Family of Terry Malone Fear Foul Play.

Young Man Was Paid Off Wednesday and Intended to Cash His Check for Month.

THE POLICE ARE SEARCHING

Terry Malone, an employee of the Illinois Central blacksmith shops, is missing from home and his parents are experiencing a great deal of anxiety over his safety.

The young man is 23 years old and has steady habits. Last night when he left home he stated he was going to city to get his check cashed. He lives near Ninth and Jones streets and at 11 o'clock had not returned home. This morning at 7 o'clock he failed to appear and his parents are very uneasy.

It is said that this is the first time he has ever failed to return home at an early hour of the night, and it is feared he met with foul play.

The young man's father is Carroll Malone, night watchman at the Dixie Mills, Eighth and Jones street, and is today instituting a search for the boy.

This is the second Paducah man to disappear in two days. William Mansfield, an employee of the Paducah Box and Basket factory, being the first to "turn up missing." Mansfield left home for medicine and has not come home yet. His family is anxious over his absence and suspect foul play. Policemen are making an investigation. Both men had money and valuables on their persons when they left home.

It Is Charged Lee Williams Struck Will Holden.

Lee Williams, colored, is under arrest pending the result of Will Holden's wounds, and may before the matter is ended have to stand trial for murder. Holden and Williams, it is said, got into a fight on Washington street some where between Ninth and Tenth streets yesterday afternoon at 5 o'clock and Williams is alleged to have struck Holden in the head several times with a heavy iron bar. The latter was rendered unconscious and has remained partly so since the assault. Williams is now in jail waiting for trial. WHOSE SAY-SO IS BEST?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their owners' and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines. Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. Hale, of the same city; Prof. Jno. M. Scudder, M. D., late of Cincinnati, Ohio; Prof. Jno. King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow and scores of others equally eminent.

The writings of these have been for the various medical journals and for publication in standard medical books for professional reading and instruction, and hence are the more valuable as they relate to Dr. Pierce's medicines, since the writers did not know that they were endorsing and recommending articles that enter into the composition of these medicines and had no personal interest whatsoever therein. Hence, their great value as endorsements.

A brief synopsis, of a small part only, of these extensive writings, which apply to the several ingredients entering into Dr. Pierce's Golden Medical Discovery—the world-famed remedy for weak stomach, or dyspepsia, torpid or congested liver, biliousness, ulceration of stomach and bowels and kindred ailments—has been compiled for publication in book form. These extracts also treat of the several ingredients entering into the composition of Dr. Pierce's Favorite Prescription for female ailments, "rags," debilitated, nervous women, who find in it a priceless boon.

Send your name and address by postal card or letter, with request for this little book, to Dr. R. V. Pierce, Buffalo, N. Y., and it will be mailed free to your address. From it you will learn why "Golden Medical Discovery" cures catarrh of the nasal passages, even though of years' standing. It is a most potent constitutional remedy for this terrible common and generally unsuccessfully treated malady. The cure will be facilitated if Dr. Sage's Catarrh Remedy be employed to cleanse out the nasal passages at the same time that the "Discovery" is employed for the constitutional treatment.

The "Discovery" is equally efficient in the cure of catarrh of the stomach and bowels, and in cases of ulceration of these organs. Read what Doctors King, Scudder, Grover Coe, and others say of the curative properties of Golden Seal root and of Stone root in cases of the above diseases. Both these roots are important ingredients of "Golden Medical Discovery." From the writings of these same authors you will learn why the "Golden Medical Discovery" cures chronic, or lingering ailments of the throat and bronchia attended with hoarseness, cough, soreness and kindred symptoms. Several of the ingredients in the "Golden Medical Discovery" are highly recommended for their specific, curative effects in laryngitis, or "speakers' sore throat," as well as in incipient consumption and obstinate, lingering coughs, which, if neglected or badly treated, are apt to end in consumption.

From the same little book you may learn why Dr. Pierce's Favorite Prescription

cures the worst cases of female weakness, profluvium, anti-venereal and retro-venereal and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh, and why inflammation of the ovaries and a multitude of other diseases peculiar to women, readily yield to its marvelous curative potency. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar ailments, who frankly and cheerfully takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

That every ingredient entering into Dr. Pierce's Favorite Prescription has the endorsement of the leading medical writers of the age amply attests its harmless character as well as its sterling curative value. Send your address for the little book and read what some of the most eminent medical men of this century say of the curative properties contained in the several ingredients which go to make up Dr. Pierce's leading medicines. No other medicines are backed up by such marvelous, disinterested professional endorsements. This one fact is worth more and should have more weight in determining whether these non-secret medicines, or some secret compounds without professional endorsement and with only the makers' praise to recommend them, are best and most likely to effect important cures.

In favor of Dr. Pierce's medicines is the frank, confiding, open statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce's medicines are made from harmless but efficient medicinal roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities. The little free book mentioned in the preceding column will tell you all about the properties and uses of these most valuable medicinal roots. Send for it now.

Your druggist sells the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "Golden Medical Discovery." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalid Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Doctor Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Dr. Pierce's 1000-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing only. For 31 stamps the cloth-bound volume will be sent. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

SUCCUMBS AT LAST TO COMPLICATIONS

Mendall W. Johnson, the City Weigher, Dies at Home.

Prominent Politician and Lodge Man and Highly Respected Citizen Is Mourned.

FUNERAL IS THIS AFTERNOON

Mr. Mendall W. Johnson, politician and prominent lodge man, and one of the most highly respected citizens of Paducah, died last evening between 6 and 7 o'clock. He had been in failing health more than a year, and had just returned from Dawson Springs, where he had gone to better his health. Although he had been bed-ridden a comparatively short time, his condition was considered hopeless from his return from Dawson. Yesterday he suffered a relapse and within a few hours passed away. He died of dropsy and complications.

Captain Mendall Johnson was 50 years old and born in St. Louis. He was brought to Paducah when an infant by his parents, and received his education in the Paducah schools.

He engaged in the steamboat business in his early manhood and later went into the foundry business with his father, the late Capt. Joe Johnson, at one time mayor of the city.

The deceased suffered reverses after the burning of the foundry several years ago, and while he had taken a lively interest in politics, had never run for office save for places on municipal boards. He served as a councilman several times and after the fire ran for the office of city weigher. He won and held that position at the time of death.

The deceased also ran for city treasurer against Col. John J. Doran at the last election when a municipal ticket was elected and was defeated by less than one hundred votes. He refused to contest. He was trustee of the jury fund, McCracken circuit court, at time of death.

The deceased was a member of the Elks lodge and stood prominent in the order for several years, at one time serving as exalted ruler. As a man, he was generally liked, making friends of all his acquaintances, and his death will be received with much regret and sorrow.

Mr. Johnson married Miss Leah White of Paducah, and is survived by his wife and five children, Misses Virginia, Leah, Fannie and Ruth, and Master Mendall Johnson, Jr.

He leaves two brothers and one sister. They are Messrs. Charles Johnson, city; J. Y. Johnson, St. Louis; Mrs. Chloe Wilson, St. Louis. Several nieces and nephews survive him.

The funeral services will be conducted this afternoon at 4 o'clock under the auspices of the Elks lodge from the residence, interment at Oak Grove.

This is the second death to occur in the family within two weeks. Mr. Johnson's mother dying of apoplexy two weeks ago in St. Louis. The son was at the time precariously ill, but stood the shock of the news well.

BAD FAITH.

Charges Senator Tillman Against the President.

Senator Tillman yesterday made in the senate another statement in regard to President Roosevelt's change of attitude on the railroad rate bill. In closing his statement Senator Tillman said: "The charge I made and still make, is that the president is guilty of bad faith, and that the rate bill, which will be, when enacted into a law, a much better and stronger measure than we had hoped to get, has been emasculated of one of its most valuable and essential features by the president's action. I am ready to leave the whole question to the thoughtful and honorable men of the country."

Dayton opened his mouth several times before he could articulate, "I did not—that is—"

"Then who was it? Where is he?"

Lord Frampton looked angrily around. "I insist upon an explanation, sir!"

"Excuse me just a few minutes. I must finish dressing. I was and I wasn't there. I'll explain." Dayton withdrew to the bedroom, pulling the portiere over the doorway.

He hurried into his clothes and returned to the sitting room. He stood before Lord Frampton, looking ashamed, repentant, honest. "I am going to make a clean breast of it, sir," he said. "I could not keep my engagement with you yesterday. I did not wish to lose the interview. I sent a perfectly competent man, thinking it made no difference to you, as you did not know me or care especially who did the interview, so long as it was done properly."

"But where is he? Where is he?" Lord Frampton tapped his cane angrily on the floor.

"I—I don't know, sir. I—"

"This is outrageous. A person representing himself to be a Fenimore Dayton, an American journalist, wrote me a note. I don't know what demon of ill luck possessed me. I had never submitted to an interview. I am a very old man and in poor health. I permit no strangers to come near me. But something—perhaps in the note—I don't know—at any rate, I consented to receive this person at my club. He, or some one representing himself to be him, came, and we talked for about two hours. He was most agreeable, most intelligent, but he had been drinking—at least I feared so—I became nervous about the interview. He promised to bring me what he had written last night. As he did not, I came here this morning. I wish to recall the interview. I forbid the publication of a word from me. I shall hold you responsible, sir! It is an outrage! It is scandalous! I shall protest publicly, sir!"

"I have no excuse to offer, sir," said Dayton humbly. "I can only throw myself on your mercy. But first let me say that your interview is safe—at least it has not been published and will not be." Then he went on to confess the whole truth, holding back nothing—his love for a young American, the impossibility of keeping both engagements and the impossibility of breaking either. "And I suppose, sir," he said in conclusion, "that Carpenter slipped away and took several drinks before seeing you and then kept on drinking afterward. In spite of his habits, sir, there isn't a man in the world more competent to get such an interview than Henry Carpenter."

"Hasn't he written on sociology?" inquired Lord Frampton. He had been interrupting Dayton's narrative with a descending series of exclamations, beginning with "Shocking!" and "Depraved!" and "Insolent!" and ending with such milder ejaculations as "Most astonishing!" "Extraordinary!" "Surprising!"

"Yes," replied Dayton eagerly, entering the opening and hurrying on to remind Lord Frampton of the titles and subjects of Carpenter's best known essays.

Lord Frampton was somewhat mollified. He said: "It was a disgraceful trick to play upon an old man, sir, but I've been young myself. You Americans—a wonderful people, sir, but—with a sudden twinkling in his old eyes—"will you get the young lady?"

"I think so," said Dayton.

"I don't doubt it if impudence is as effective with the ladies as it was when I was a young fellow," Lord Frampton chuckled.

"Would you mind if I showed you a photograph of her, sir?" asked Dayton, shamelessly using his bride to be as a pacifier of the old man's wrath. He brought the photograph, a fair haired, clear eyed girl with a resolute face looking straight out of the picture at you.

"A fine American type," said Lord Frampton.

They talked for a few minutes of America, then Lord Frampton suddenly remembered his wrongs and was angry all over again. "I am very old," he said peevishly. "This will shorten my life. And where, sir, is that associate of yours, this Carpenter?"

"I'll find him," said Dayton, and after he had hastily taken coffee and a roll they set out for the far end of Pimlico. They found Carpenter's lodgings down a dismal alley in a house which, had it been built of wood instead of stone, would have been obliterated decades before. A pinched New England female face answered the knock at the door to which the slattern in charge had directed them.

"What do you want?" said she, in what is sometimes called the "pie and pickles" voice.

"Where is Mr. Carpenter?"

"That's what I'd like to know," Mrs. Carpenter answered.

A few minutes' talk made it clear that no news was to be got there.

"We'll have to look for him," said Dayton, as if they were sure to find him. And on the way back to the Piccadilly-Strand district he tried to persuade Lord Frampton to go quietly to his club and wait.

"No," said Lord Frampton crossly. "I go with you. Really, Mr. Dayton, this is a most extraordinary proceeding. When peace and quiet are absolutely necessary to me, I find myself rushing about London in search of a wild drunken creature. My whole life has been spent in quiet, and now, at ninety, thanks to my accused folly in answering a note from a wandering American journalist—I must have been out of my mind! I feel like pinching myself to see whether I am awake. I shall

not leave you until we find him. I must look to my reputation. Why did I—why did I answer that devilish note?"

Toward 9 at night Dayton, in the effort to calm one of the old man's tirades—he was very tired and sleepy—told him that Elsie and he were to be married on Monday. "As her mother won't consent, we shall go quietly to

the American consulate. I've arranged it all with a friend of mine."

"Most extraordinary!" muttered Lord Frampton. "More impudence! And what am I doing here—at my age—in my health?"

"Will you come?" interrupted Dayton.

"Come! Come where?"

"To the wedding. We'd be delighted."

Lord Frampton stared. "God bless my soul!" he ejaculated. "Am I dreaming? I—invited to take part in a runaway marriage—!"

"I suppose you're afraid there might be a mistake and you'd be the bridegroom."

Lord Frampton smiled, then chuckled, then laughed. But they were just at Carpenter's lodgings—their fourth visit. Yes, Carpenter had returned, had staggered in about an hour before, and was now upstairs. His wife opened the door. There he lay upon the bed, his clothes torn and mud bedaubed.

"Roll 'im on the floor," suggested the eldest boy. "Let me throw water on 'im. Mar'm always does, don't you, mar'm?"

All, including the renowned philosopher, who used his cane vigorously as a prod, joined in the effort to revive the drunken man. When he at last opened his eyes Dayton said, "Here, here, Carpenter, where's that interview?" and kept on shaking him to prevent his lapsing into the stupor.

"Pocket," mumbled Carpenter. "Is a gran' ol' man. Of Frampy passed 't out hot. Gran' ol' man, Frampy."

Dayton reached into the inside pocket of the coat and drew out a notebook.

"Ha!" Of Frampy clutched it, put on his eyeglasses and glanced over the pages. "Yes, this is it. I never expected to see it. Bless me, what a relief!"

Dayton gave Mrs. Carpenter a sovereign, "on account," he said, for lack of any other disguise of the charity, "and when he comes around tell him I want to see him."

Dayton and Lord Frampton hurried away.

"Where shall I set you down, sir?" said Dayton.

Lord Frampton gave the number of a private hotel in Dover street. They drove in silence for ten minutes, then the philosopher chuckled. Dayton glanced at him furtively. He had been devising a plan for approaching the subject of the interview. Perhaps he could induce Lord Frampton to give up the notebook. When the old man chuckled again he ventured to speak.

"Will you forgive me, sir?"

"Forgive you, you young rascal? I oughtn't, but—it is certainly very ridiculous—how my friends, my readers all over the world, would laugh if they could know what I've been doing." He chuckled again.

"Then you'll come to the American consulate on Monday at 10—to the wedding?"

"The spirit of adventure has got into my blood. Yes, I'll be there—if I don't die of the reaction."

"And that interview?"

"There, there! Not a word about that. I'll overlook it."

"But I mean—it's a great impertinence to ask it—only—"

Lord Frampton turned in the cab and looked at Dayton's calm, earnest face in amazement. "You don't mean, my dear sir, that you are daring to ask me to—no! It's impossible. Even you wouldn't dare!"

"But, sir, it seems a shame for you to have all this annoyance for nothing. I can transcribe the notes and have them typewritten and bring them to you. And if you are not satisfied you can tear them up or use them for some other purpose."

Lord Frampton was laughing. "I have always held," said he, "that surprising results were to come from your race under the political, social and geographic conditions of the new world. But I must say—"

"And," pursued Dayton, "I could enable it over tomorrow for Sunday's paper, and I'm sure it would be a great hit. The Americans are tremendous admirers and readers of your work."

PILES CURED

As Easily As A Cough; Painlessly, Quickly and Without Cutting.

Trial Package Mailed Free.

The agony and suffering in piles is so great that if a surgical operation was a certain cure (which it isn't) and there was no other means of relief some persons might be willing to take the chance of blood poisoning or lockjaw.

But, now, that the Pyramid Pile Cure has been discovered and has been proven to be a quick and certain means of relief and lasting cure, there is no excuse for risking your life.

Does Pyramid Pile Cure give immediate relief? Does it cure? Try it and prove it to yourself as thousands have done before you. Then go to your druggist and get a 50 cent box and complete the cure.

Pyramid Pile Cure will cure you and do it with a certainty and a rapidity that will astonish you.

Take, for example, the case of Mr. Benjamin Shaw, postmaster of Bland. We quote his own words in his letter of October 31, 1905: "I was in great agony of mind and body. In the meantime, a gentleman told me of the virtue of your Pyramid remedy. I fortunately found it at a drug store, and by the next morning I did not feel that any operation was necessary, and in three days I was able to return home and a complete cure was accomplished to my great satisfaction and the surprise of the physician."

For a trial package, send your name and address to the Pyramid Drug Co., 4619 Pyramid Building, Marshall, Michigan, and you will get a trial package by return mail. No marks.

PICKLED FINGERS.

Found in Bottle Floating in River at Foot of Campbell Street.

A negro fisherman found an open bottle containing three human fingers from the left hand of some white man floating in the Ohio river at the foot of Campbell street yesterday. He turned the find over to James Goacher, of the north side, and the fingers were placed in a clean bottle and preserved in alcohol. It is presumed the fingers are from the hand of some laborer injured in a mill accident, and that the fingers were thrown into the river after amputation, or possibly they were thrown into the river by some doctor who held his regular spring cleaning of office and adopted this means of ridding himself of an over supply of curios.

Dangers of Defective Plumbing.

Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enamelled Ware—acknowledged as the best sanitary equipment.

SALARY INCREASE FOR YARDMASTER

Mr. Stonebreaker Receives Recognition of Services.

Chief Engineer Baldwin Returns From Inspection Trip Over Nashville Division.

GOSSIP FROM LOCAL SHOPS

Mr. G. M. Stonebreaker, general yardmaster of the local Illinois Central, has been given an increase in salary in recognition of the excellent work he has done. The raise was granted yesterday when the pay car arrived, and Mr. Stonebreaker received the first raise yesterday, his check calling for \$15 more on the month.

Mr. Stonebreaker came here over a year ago from Illinois and took charge of the local I. C. yards. He inaugurated a system peculiarly his own, watched the business of his department constantly and recommended improvements where necessary. He has succeeded in placing the yards second to none in dispatch of business, a fact that is gratifying to his superior, Mr. L. E. McCabe, trainmaster of the Paducah district, and others connected with the division.

Mr. Stonebreaker, it is stated, talked of resigning last week, and at one time was ready to hand in his resignation. The increase of salary coming as it did showed the appreciation was not lacking, and Mr. Stonebreaker will remain in charge of the yards here.

The I. C. pay car finished work here yesterday afternoon late and this morning left for the South.

Chief Engineer Here.

Dr. D. G. Murrell has gone to Memphis on professional business connected with his position as assistant chief surgeon of the Illinois Central Hospital association.

E. L. McCutchan and Guy L. Sanders, of the Illinois Central at Memphis, are in the city.

DEATHS

John D. Kiger.
News of the death of Mr. John D. Kiger, father of Mr. Charles Kiger, the well known traveling man of the city, reached here this morning.

The deceased had been ill for some time, suffering from an attack of paralysis, and died yesterday afternoon late in his home in Winchester, Va. He is survived by two sons, Charles Kiger, of Paducah, and John Kiger, of Princeton, Ky., and one daughter, Mrs. Charles Jones, of Charlottesville, Va. Mr. Charles Kiger and wife, formerly Miss Allie Sanders, of Paducah, were visiting in Evansville when the summons came, and left this morning for Winchester to attend the funeral. Mr. John Kiger and sister were already at their father's bedside. The deceased was a man of about 65 years and well known and prominent in his state.

Mrs. Maggie Calvert.
Mrs. Maggie Calvert, 65 years old, died at Calvert City yesterday afternoon at 4 o'clock after an illness lasting but a few hours. She died of congestion, being attacked at 10 o'clock in the morning and succumbing at 4 o'clock in the afternoon. The deceased was the widow of the late Patillo Calvert, a prominent resident of that section. She was a member of the Baptist church and is survived by several children. The funeral will be held this afternoon at Calvert City, burial in the Calvert cemetery, services by Rev. Shalkiesberry.

Sanitation Hints.
Good sanitation for 1906 should be your motto.

Clean your premises, keep them clean and sprinkle with lime.

Screen your doors and windows and keep out the housefly, the most dangerous of pests. It carries disease and infection.

The most effective money spent in advertising Paducah will be that spent in cleaning and draining it. Every citizen can help to do this, in their own way.

CHEAPER FARM LAND.
Southwest Offers Best Opportunities for Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the southwest. Many who have been unable to own their homes in the older country are buying land in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn a bale of cotton, 4 to 6 tons of alfalfa, 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No long winter feeding. Free range, pure water mild climate. A healthy, growing country, with a great future.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month.

NOT SURPRISED.
Was City Solicitor Campbell At Decision of Judge Evans.

"I was rather more disappointed than surprised at the ruling of Judge Evans on our motion," said James Campbell city solicitor, on his return from Louisville, where he and Attorney Hal Corbett argued a motion to dissolve the temporary injunction secured by the Cumberland Telephone company against the city.

"I rather expected such an outcome, although I hoped to get this federal court matter out of the way before the telephone case got to the court of appeals. The injunction case comes up for final disposition next fall. Of course, it complicates matters to have such a controversy hanging in both the state and federal courts at the same time."
